

In the name of Allah, The Merciful, The Compassionate.

O young person, know that Allah created you, your family and friends, and all people for only one purpose.: Our Lord created all people to worship Him.

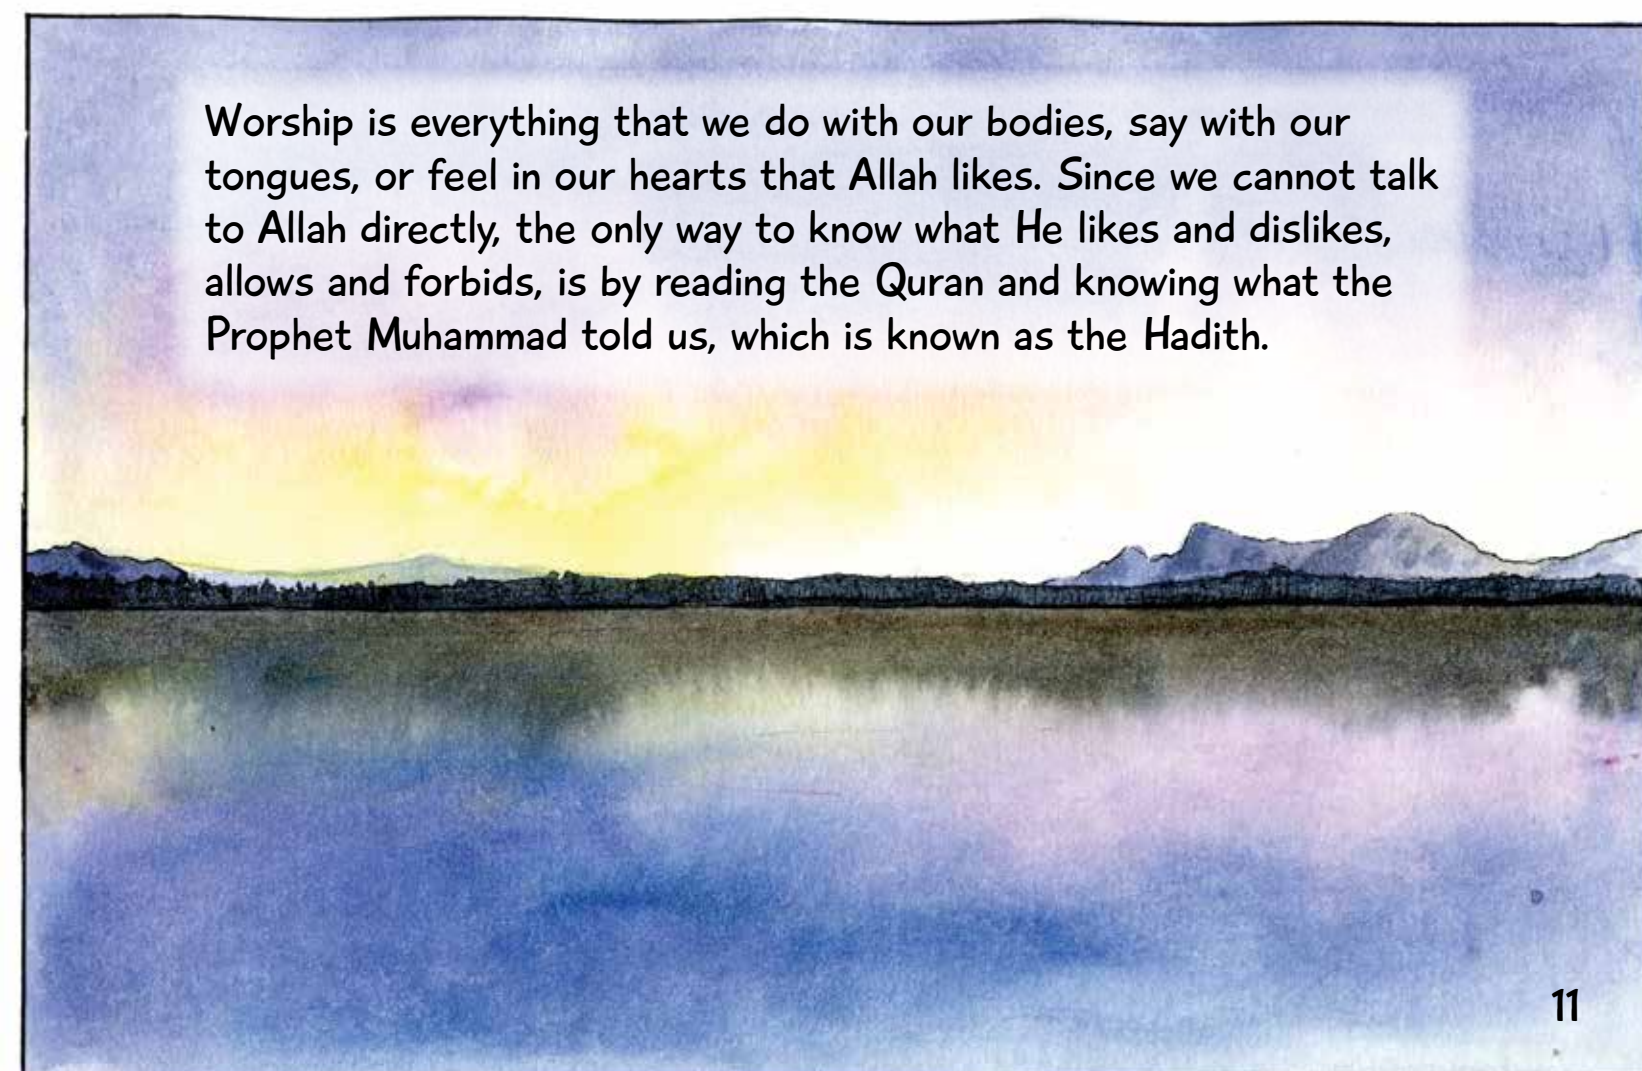

Thus the Quran says that Allah created the jinn and humans only to worship Him. (*Surah al-Dhariyat, 51:56*)

Allah forbade all people to worship other objects, people, angels, animals, plants, sun, moon or stars.

Worship is everything that we do with our bodies, say with our tongues, or feel in our hearts that Allah likes. Since we cannot talk to Allah directly, the only way to know what He likes and dislikes, allows and forbids, is by reading the Quran and knowing what the Prophet Muhammad told us, which is known as the Hadith.

It is important to understand and remember that worshipping Allah is the only reason Allah gave us life. So we should spend our time and effort on doing just that.
