

Allah has made all animals, birds,
insects and fish.
Some fly.
Some swim.

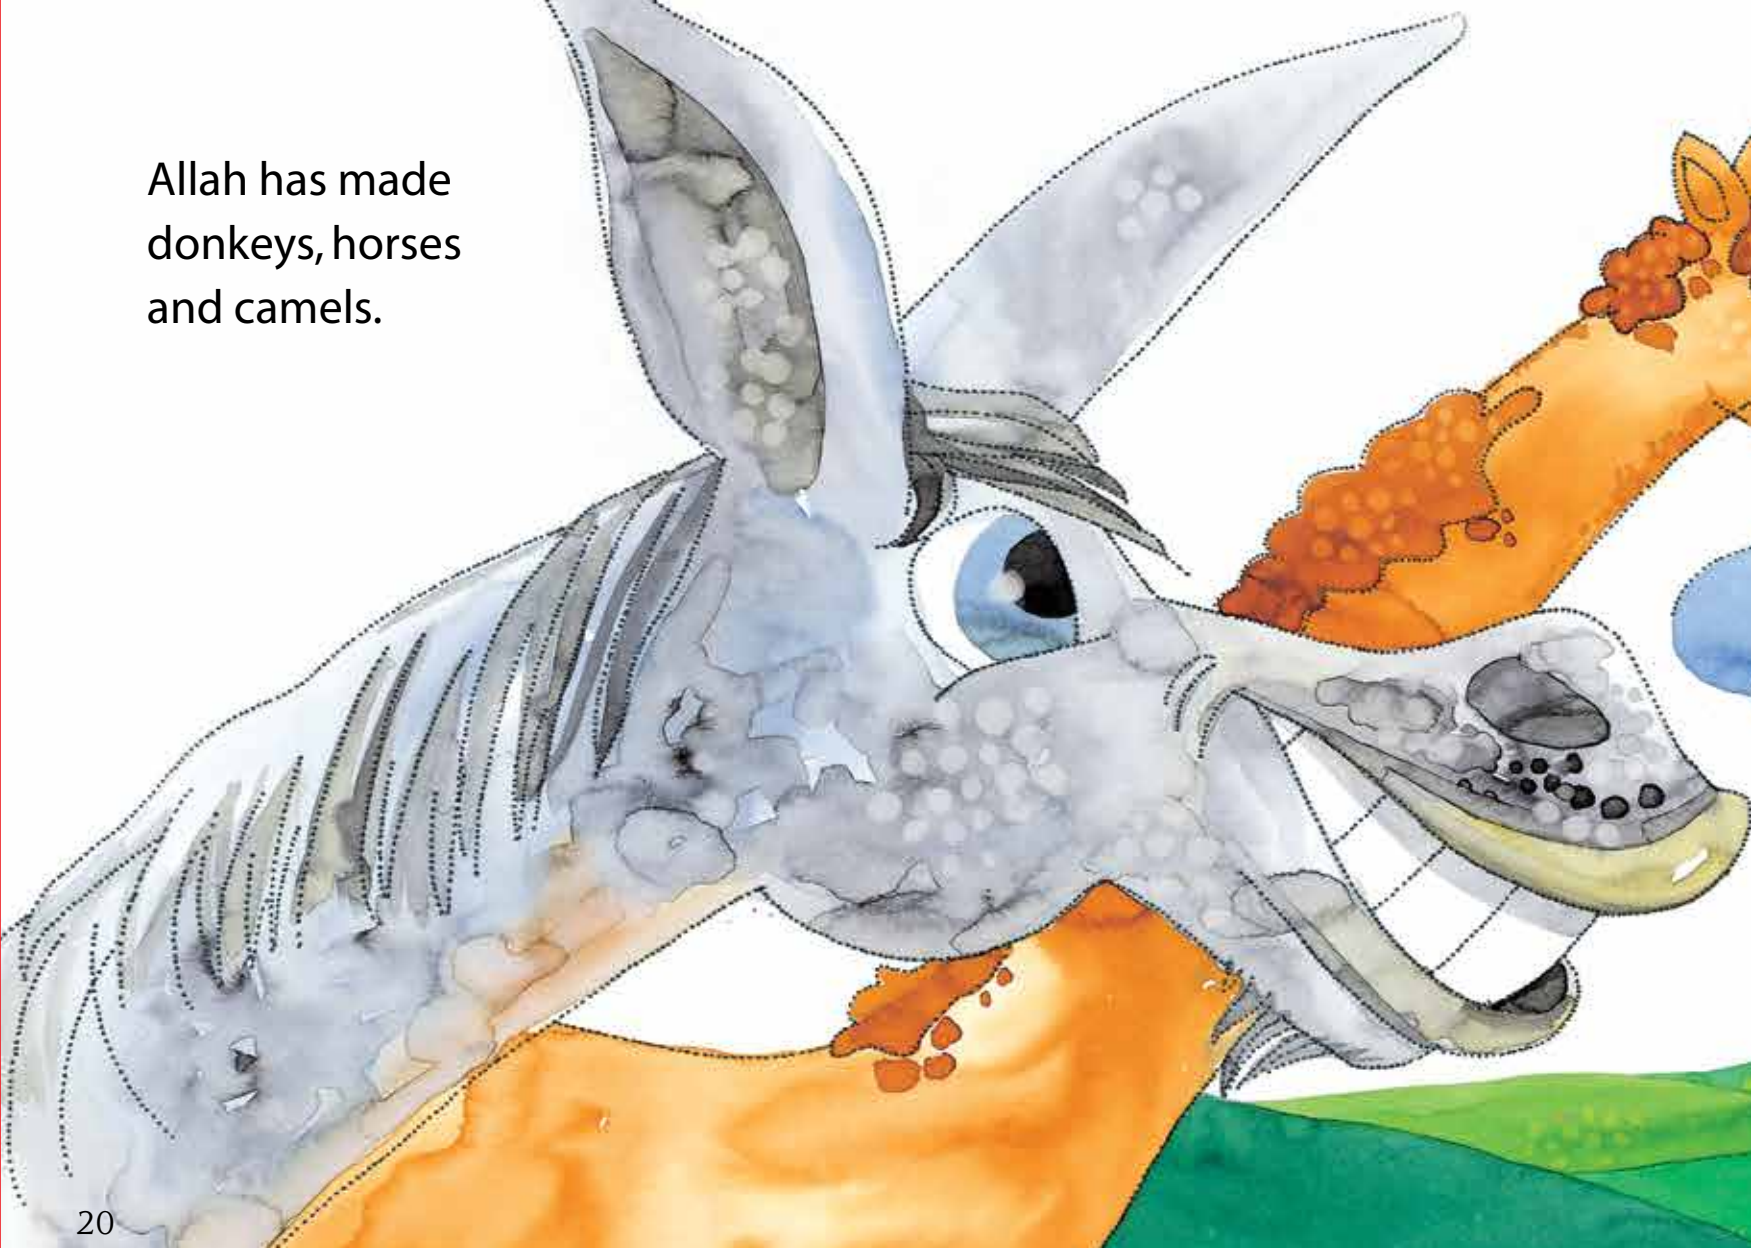

Some *creep* on their *tummies*.
Some walk on two legs.
Some walk on four legs

Allah helps the birds
to fly so high.

Allah has made
donkeys, horses
and camels.

They help us to carry heavy things from place to place.

Allah made
all animals,
birds, insects
and fish.

They all
belong to
Allah.
